up-lighting

Our up-lighting is all wireless and battery operated. No more wires or extension cords taped to the ground. Our setup is clean and organized!

It is an LED fixture that can be set to any color of your choice. Because these fixtures are completely wireless, we can place these lights anywhere in the room.

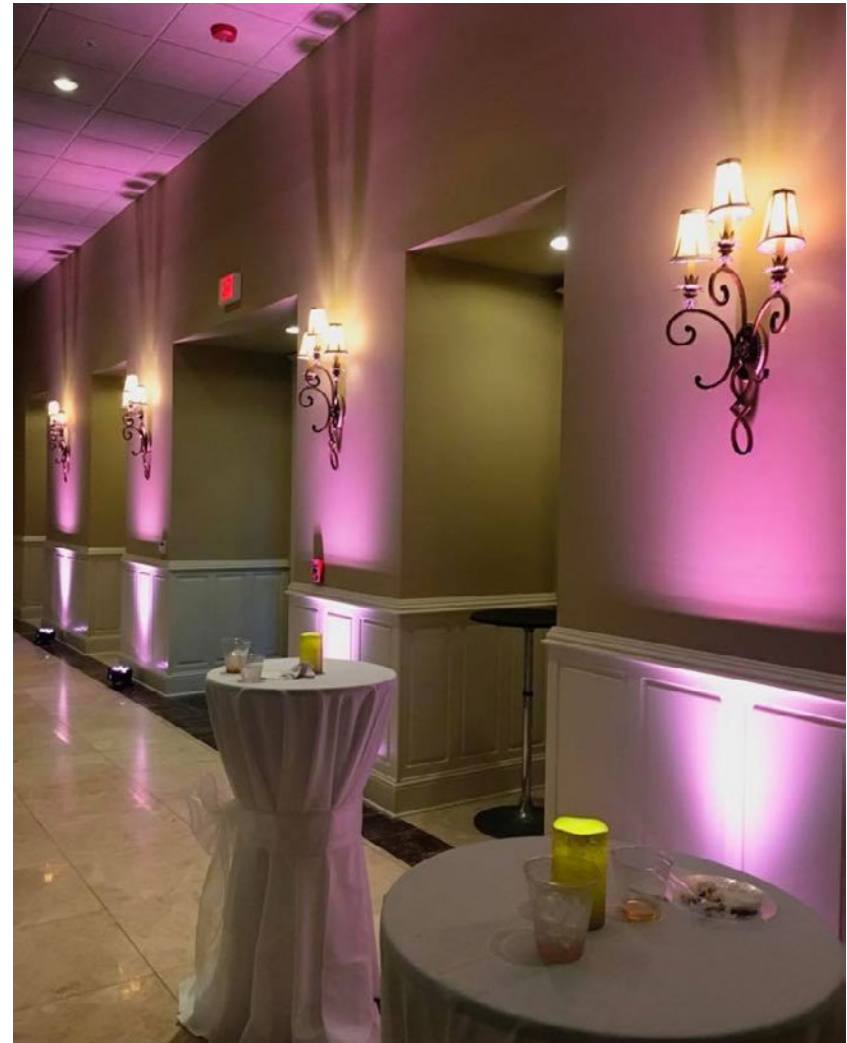

Wedding

Having a hard time trying to decide the color to light up the room? Maybe a lighter shade of pink, or a darker blue? Perhaps you want the room to change colors throughout the evening? Our lights offer a unique WIFI option to allow

the user to link a cell phone or an iPad directly to them. Our lights are of the highest caliber on the market right now. They are wireless, battery powered, and WIFI operated so that you can choose any shade of any color.

bistro string lighting

String lighting is a beautiful way to set the mood - indoors or outdoors! Hang the lights above the dance floor, outdoor space, or on the ceiling of a tent.

String lights are available with white or black cords. Our string lights are specially designed to be shatter proof and waterproof!

dance floor & ceiling lighting

We also offer intelligent, moving light fixtures. A perfect combination to go with your DJ and up-lighting so that your friends and family can dance the night away in style!

With moving lights, we can offer a wide range of endless possibilities. Whether you want to light up the dance floor during your favorite song or wash the ceiling in midnight blue while you slow dance to your first dance, adding moving fixtures can make the world of difference at an event.

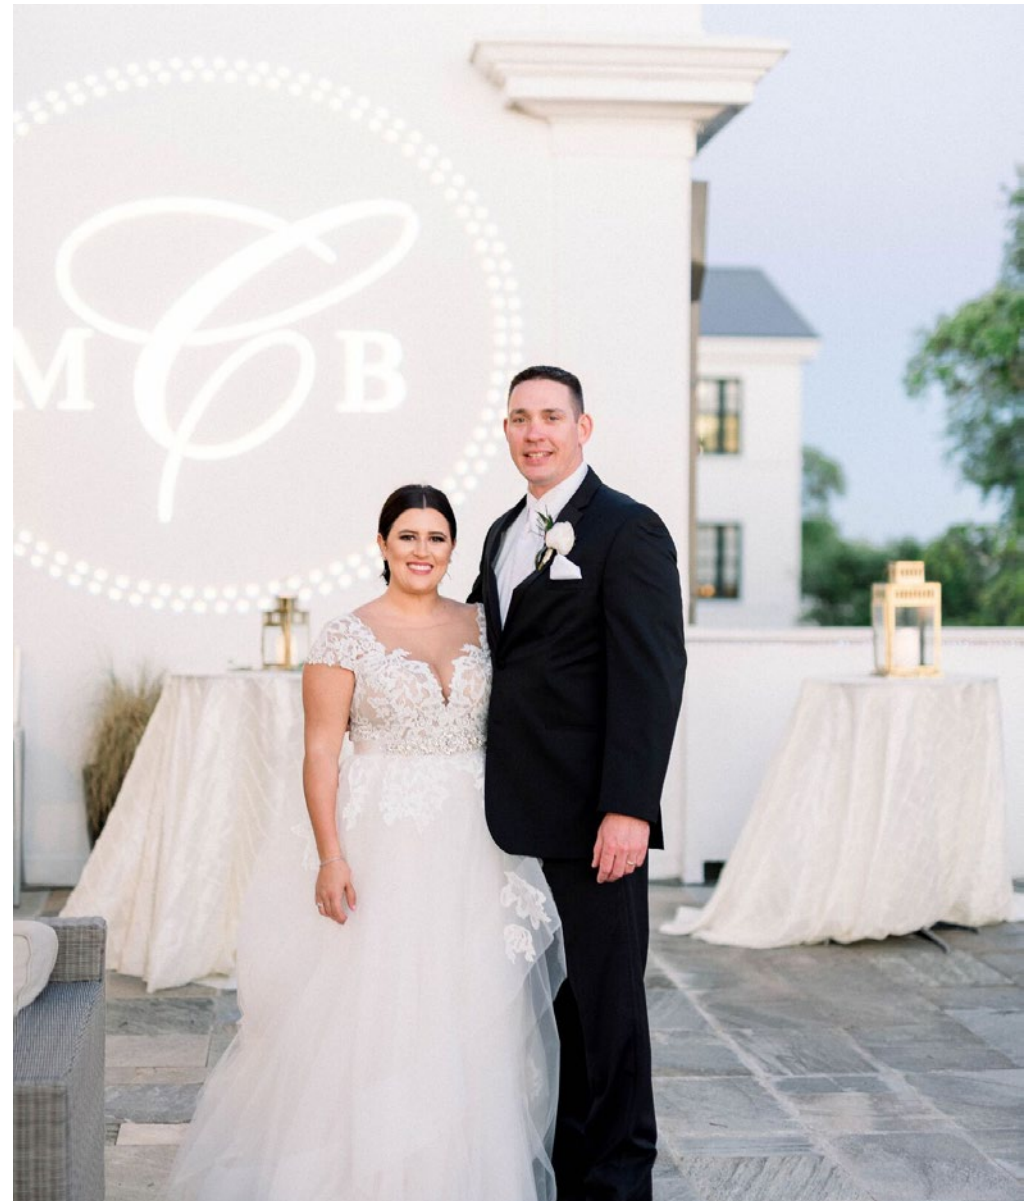

monograms & gobos

Do you feel like the walls are empty? One way that we can help fill the emptiness is by painting the rooms with some simple, clean gobo designs. We use gobos to line big walls or ceilings to help keep the room from looking basic and plain.

We have hundreds of designs you can choose from.

We create an elegant piece of art using the bride and groom's first name and last initial. Once the artwork has been completed, we take this image and cut it into an aluminum circle called a gobo. Once cut, we place the gobo in a lighting fixture and shine it on the wall or dance floor.

After the wedding concludes, we will let you keep the gobo as a keepsake. If you have your own artwork, we can use that as well.

Artwork fee is included in all packages with three proofs. (A small upcharge of \$25 per additional proof)

cake & accent lighting

We use wireless and battery-operated pin spots for our cake and accent lighting in a warm, neutral tone. Because of its smaller size, we use this very specific type of light to “hide” or “blend” so that you don’t even notice they are there. For cake lighting, we will use a minimum of 2 pin spots, and a maximum of 4 pin spots. We will make sure the entire cake is lit from all angles for your special day.

flower & buffet table lighting

Most people spend hundreds if not thousands of dollars on beautiful flower arrangements for their guest tables. What tends to happen is when the lights dim in the room, these beautiful flowers get lost in the dark. The joy of having wireless lighting is that we can put lights literally anywhere in the room.

We use the same wireless pin spots that we use for the cakes to light your flower arrangements. We can also add light to your groom cakes and buffet tables.

special effects

Want to have a sendoff with sparklers, but the venue doesn't allow them?? Have no fear, we got it covered. Check out water-based fog machine! Chose a color, and we will blast smoke 8 feet in the air on both sides as your friends and family send you on your way!

**Recommended for outdoor use only*

low lying fog, dry-ice

dj & emcee services

We provide everything ourselves and need nothing but an outlet for power from your venue. We provide a very clean and professional setup, including a façade that we set in front of our equipment to match the linens and theme of your wedding décor.

We provide a wireless microphone that can be taken anywhere in the room. This is all included in the price to DJ.
